## **Background**

On April 2, 2015, the Court ordered the Department of Social and Health Services (DSHS) to file monthly reports with the *Trueblood* Court Monitor on efforts to comply with Court orders to provide timely competency evaluation and restoration services to Class Members:

*“Defendants shall file a report with the Monitor on the fifth day of every month, which shall include:*

- (1) the number of days between when a court ordered provision of competency services and when provision was completed, for each person ordered to receive competency services during the previous month;*
- (2) data regarding the number of evaluators, bed capacity, physicians, and other resources needed to provide timely competency services;*
- (3) the steps taken in the previous month to implement this order;*
- (4) when and what results are intended to be realized by each of these steps;*
- (5) the results realized in the previous month;*
- (6) the steps planned to be taken in the following month;*
- (7) certification by Defendants that they are fully compliant with all deadlines that became due in the previous month;*
- (8) Defendants’ estimate for when the wait times will reach seven days or less, and all data relied on in making that estimate; and*
- (9) any other information the Monitor informs Defendants is necessary for the Monitor to fully review Defendants’ actions and advise the Court.”*

The following report is submitted this 15th day of September, 2015. Through submission of this report to *Trueblood* Court Appointed Monitor, Dr. Danna Mauch, the Department of Social and Health Services certifies compliance with all deadlines due for the month of August 2015 in accordance with this court order.

## **Class Member Status Information**

This report provides the class member data for Competency Services displayed in two periods—July 1, 2015-July 31, 2015 and August 1, 2015-August 31, 2015. The July data is considered “mature” and the August data is a first look data set. April 2015 is the baseline month for data analysis. As in previous reports, all data is reviewed using medians; however, as requested the information is also provided using averages.

The data is organized first into tables and graphs that show the trends forming over time. Given its less mature nature, graphs are shown only through the July data set. August data will be refreshed and included in the graphs in the October 15, 2015 report.

Specific class member information has been moved to the following appendices to this report:

Appendix A: Class Member—Evaluation Information for July 2015

Appendix B: Class Member—Restoration Information for July 2015

Appendix C: Class Member—Evaluation Information for August 2015

Appendix E: Class Member—Restoration Information for August 2015

Information for cases awaiting evaluation or restoration treatment services for longer than 100 days is included in Appendices E and F.

## **Analysis of Data: April 1, 2015 through July 31, 2015**

- The number of orders signed for evaluations increased by 15% from May to June 2015 and increases continued into July; the number of orders signed for restorations more than doubled from June to July 2015
- The percentage of evaluations and restorations completed within seven days remains relatively unchanged over time
- The median days between order signature and the end of the reporting period (the wait time) decreased by 54% from May to June and the trend shows further overall decline into July
- Wait times remain consistently higher at ESH as does the percentage of completion within seven days. The exception is admission for restoration which ESH does complete within seven days as a much higher rate than WSH. It is interesting to note the average and median days from signed court order to receipt of order and to receipt of discovery is significantly higher at ESH. In fact, the data shows that the number of days in each is often above half of the seven days; and in many cases exceeds the seven days.

Actions that should improve evaluation timeliness:

- 11 of the 13 new Forensic Evaluators are on board as of September—this should begin to help bring down wait times
- Implementation of multi-prong focus on bringing down evaluation wait times are detailed on page 25

- Work under way to convene partners across the system within local communities should help address challenges such as timing in transmission of documents. Further details on this work is noted on pages 30 and 31

Improvements to restoration admission timeliness will be dependent on the addition of the 90 new restoration treatment beds which are planned to come online between November 2015 and January 2016.

## **Resources Required to Provide Timely Competency Services**

### **Need Projections**

The investment made by the Legislature in the 15-17 biennial budget and the short and long-term strategies that are being undertaken will enable Washington to provide competency services within the time frames established by the Court. Washington is making every effort to provide competency services within the seven-day standard and intends to comply with this requirement by January 2, 2016. The anticipated compliance date is based on the estimates and data, detailed below, that were included in the Long-Term Plan dated July 2015 and the July and August 5<sup>th</sup> monthly reports. Estimates were not updated during the month of August 2015.

Fiscal and program staff from DSHS and the Washington State Office of Financial Management modeled additional bed capacity needed to meet a seven-day standard for admission with assumptions of increases in demand at ten percent and twenty percent annually. The following graph illustrates the model as applied to WSH and ESH.

For mentally ill defendants ordered to receive competency restoration treatment, additional inpatient forensic hospital bed capacity must be developed or made available. Based on projections in the chart above, it is estimated that compliance with a seven-day standard will require 90 beds during the 15-17 biennium.

## 2015-2017 Biennial Budget to Support Improvements to the Forensic Mental Health System

The two-year operating budget for the period of July 1, 2015 to June 30, 2017 (hereafter referred to as the 15-17 biennial budget), enacted by the Legislature on June 29, 2015 and signed by Governor Jay Inslee on June 30, 2015, includes an investment of \$40.5 million in new funding. Table One details the funding provided in the 15-17 biennial budget.

**Table One: Forensic Mental Health System Funding in the 15-17 Biennial Budget**

Budget Item	FTE's	Dollars (Millions)

### **Expanding Bed Capacity**

DSHS intends to maximize the use of state hospital beds to meet the seven-day competency services standard. However, staffing challenges are real and continue to exist in recruiting, hiring and retaining a sufficient number of qualified staff to operate new and existing wards at the state hospitals. This is particularly challenging in certain classifications such as psychiatrists, psychologists, registered nurses, and social workers. DSHS is recruiting staff to fill current ward vacancies, add staff for a new civil ward at Western State Hospital and to open new competency restoration treatment wards at both state hospitals. Given these staffing challenges and our intent to meet the seven day standard set out in the Trueblood order, we concluded that alternative options for the delivery of competency restoration treatment services will be necessary to meet the January 2, 2016 deadline.

#### *Track One: Continue Development of Increased Bed Capacity at the State Hospitals*

Preparation is underway to open 60 beds at WSH and ESH as follows:

WSH Ward S4	10 Beds	Became operational in June 2015
WSH Ward S4	5 Beds	Planned date of September 2015 pushed back due to archaeological finds on the grounds. Completion date is pending the outcome of archaeologist's survey.
WSH Ward E2	30 Beds	Planned operational by December 2015
ESH Ward 3S1	15 Beds	Planned operational by November 2015

#### *Track Two: Negotiate Alternative Restoration Treatment Contract in Eastern Washington*

Since the labor notification process resulted in no formation of an Employee Business Unit, DSHS is exercising its authority under RCW 39.26 to enter into direct negotiations with Comprehensive Mental Health, a non-profit community mental health agency, to establish up to 30 competency restoration treatment beds at a vacant space in Yakima, Washington. The intent is to enter into a contract as soon as possible with intent to begin operations as soon as possible and to contract for a period of one year with the potential for a one year contract extension.

#### *Track Three: Develop Bed Capacity at the Maple Lane Facility*

In the meantime, DSHS will continue work to pursue a special use permit at the Maple Lange facility in Thurston County. This will offer the future potential to open up to 30 additional beds using either state employees, contracted staff, or a combination of state employees and contracted staff to provide competency restoration treatment services. An additional 30 beds are anticipated to be transitioned to the state hospitals from shorter-term contracted or alternate facility operations.

### **Future State Hospital Bed Expansion**

In the future, DSHS may place into operation up to 30 additional beds in the State Hospitals. This expansion would be dependent upon future funding adjustments, acquisition of staff required to operate the additional beds and/or the phase out contracted beds.

### **Trueblood Key Accomplishments--August 2015**

- 11 of the 13 additional Forensic Evaluator positions have been hired. This includes 8 at Western State Hospital and 3 at Eastern State Hospital.
- A multi-prong strategy to bring down evaluation wait times in Eastern Washington has been developed. It includes the following elements:
  - Two Forensic Evaluators at Western State Hospital have identified interest in working out of the Yakima area part time to conduct evaluations in the central area of the state. In order to fill behind the evaluation capacity of these two Forensic Evaluators, the remaining two Forensic Evaluator positions will be transferred to the Western State Hospital team where additional hiring is possible.
  - Evaluation Focus teams will be conducted in September and October 2015. Additional resources from the Western Washington Forensic Evaluator team will participate in these focus teams to travel to areas with the longest waits to complete outstanding evaluations. Focus Area 1 – Complete in custody misdemeanor evaluations as they are typically faster and can move individuals, many of whom will likely be determined to be competent, more quickly to the next steps in their judicial processes. Focus Area 2 – Complete evaluations concentrated in geographic areas with the longest wait times.
  - Work is under way with our Human Resources and Labor partners to establish assignment pay for Forensic Evaluators who would be interested in producing additional competency evaluations. These positions are currently overtime exempt due to the nature of their work. However, with additional assignment pay for evaluations completed over and above current productivity standards and beyond current working hours, additional resources can be dedicated to bringing down the evaluation wait lists and times.
- DSHS concluded the RFI and labor notification processes and determined to move forward with contract negotiations for the addition of 30 contracted competency restoration treatment beds. Court Monitor Dr. Dana Mauch was notified of the decision and is arranging to have an expert visit the facility.
- Drafted a communication to the counties regarding Community Competency Evaluations to include information on statutory eligibility, legislative funding, data collection, and reimbursement procedures. This program will allow counties to be reimbursed for conducting competency evaluations under circumstances specified in legislation passed in Senate Bill 5177.
