---

I got something!

. I didn't get any facial hits on your primary suspect, however, I have attached the results for your associate. I haven't looked into him in depth to figure out your main person but I wanted to get this over to you ASAP. I have a meeting at 1 so I didn't want to sit on it while I was at the meeting.

I have attached the results. What do you think?

If you don't have the other guy figured out by the time I get back I will see what I can find.

Thanks!

Shawna,

Before I try to send this out locally do you think you can give this a try on our facial recognition software. The suspect using my victim's credit card is actually the one wearing the red hoodie but a name for either would be great.

Thanks and happy holidays.
